«In varietate concordiQ»

(United in diversity) is the official motto of the European Union. It encapsulates the spirit of the people of the EU working together for peace and prosperity; their many different cultures, traditions and languages combining for the benefit of all. The motto was first coined in 2000, the same year the «EURO(TIOVERS)» brand was presented to the public. EUROfnOVERS sprang from like-minded European movers wishing to cooperate with others whose standards, vision and direction would be enhanced by uniting under the same banner. So the network became reality.

As Europeans we are proud of our many different cultures, traditions and languages; as EUROFTIOVERS that heritage is our foundation - we enhance its value with common language, standardised equipment and uniformity of branding so translating it to a seamless provision of service. We take ISO 9001 certified quality as our benchmark and add our own unique and celebrated service levels.

Development continues - since its inception the EUROmOVERS Family has grown and now includes non EU members and others in four continents.

"...We feel that our name has a different dimension with the logo of EUROFTIOVERS behind it"
